CRO+MA LAB

CROWDS+MACHINES

You're invited to the

CRO+MA Lab Research Showcase!

Friday, November 16, 2018
11:30 am – 1:30 pm   Tishman Hall

Come see student-led HCI research at the Crowds and Machines (CRO+MA) Lab Research Showcase. There will be posters and demos of cutting edge research, as well as opportunities to network, forge new collaborations, and learn more about undergraduate research opportunities in the CRO+MA Lab.

Undergraduates, graduate students, and faculty are encouraged to attend. Lunch will be provided!

Please RSVP at http://bit.ly/crsrsvp

About the CRO+MA Lab
Our lab conducts research on "hybrid" intelligence (Human-AI) systems and human-AI teams. Our interactive systems and algorithms help solve problems that neither humans or computers can solve alone by leveraging the strengths of both. Our research spans Human-Computer Interaction (HCI), machine learning, reinforcement learning, interactive learning, developer tools, real-time collaboration, accessibility for people with disabilities, and natural language processing.
